The Air Com Aircraft Radio

Designed to be used in conjunction with the ACD-57 display, the Air Com is an 8.33 kHz radio that can be mounted remotely or attached directly to the back of the ACD-57.

The Air Com includes a Dual watch function to monitor two frequencies at the same time. Different volume levels can be used for the two frequencies. Programmable memory for your favourite frequencies is available as well as a history of recently used frequencies.

Price: 1090 €

ACD57 and Air Com kit: 1590 €
